Darshan Patel

July 2021

We had a contract with this supplier to deliver goods embroidered such as track suit bottoms, t-shirts, sweat shirts, jackets, hats amongst many other items.

We found the supplier to be empathetic to the parents needs; who always delivered not only on time but more so the quality of work produced was of an extremely high standards within an affordable budget. The quality of goods delivered lasted a few years and this was favourably commented by the parents who found the material used to make the goods to be high quality.

What makes the difference is the one on one support provided for the parents.

They give you really in depth knowledge about the products and overall a great website. The choice of suppliers of goods is great. The during and after care is also excellent. They grind every request and the choice of goods unmatched. Absolutely brilliant customer service with a speedy resolution and support. Our experience has been very positive, both with what is already available and with what we required specifically. I highly recommend this supplier without any reservations.

Yours sincerely,

Mr U Raja  
Headteacher
